

It was very useful and will benefit my career

Was very helpful way for insight to inclusion

Ways to work around challenges for each sport

5 tutors

98% participants attended at least 1 day of training

82 1st Year students registered

94% attended both days and completed assessment

Each student had 6 training hours available to them

80% of participants completed the evaluation

Being able to adapt different activities to suit different abilities

96% thought Tutor Knowledge of Disability Sport was Good/Very Good

87% thought the 2 day programme was just right length

Learning how to include wheel chair users and also learning to be able to guide and support visually impaired students

100% found the content to be good or very good

Only 3% thought individual sessions were too short

96% thought they had gained Very Good/Good practical experience

It was really useful to see how to include people with disabilities. I have lots of experience working with people who have different impairments as a group but I've never worked with a group where there's only a couple of individuals who have impairments so it was good to see how to include them with a group of people who don't have a disability. It was also good to get theory and practical.

I found the practical element of problem solving how to fit people with disabilities into our lesson useful

How to adapt sports I never realised could be
